Brands

We are committed to bringing you wellness in the most natural way possible. This is reflected in our purposeful selection of skin and body care products and treatments.

Our in-house brand, Oasia Signature focuses on giving the mind and body respite from the stresses of the modern world. Our three massage oils - Recharge, Rejuvenate, and Refresh are blended by a team of aromatherapists in Japan. Each uses a luxurious blend of 8 powerful ingredients like rice bran, jojoba and adley as a base, and are free of SLS, parabens, silicones and synthetic substances. Recharge uplifts with lemongrass, mandarin, hinoki and pepper, all of which boost circulation and release muscular tension. Rejuvenate restores the body and grounds you with its gender-neutral scents of cedar, clary sage and coriander seed. Refresh relaxes and calms with its soft floral scents of lavender and geranium.

Breaking further ground in spa solutions, we are the first hotel spa in Singapore to partner with Swissline by Dermalab, offering three luxurious facial treatments and a day retreat. Founded in 1989 in Switzerland, as a natural evolution to the developments in the medical and pharmaceutical fields at the time, Swissline's 360-degree collagen-based formulas, anti-inflammatory solutions and professional treatments do much more than treat visible concerns. They support the skin's structure and functions, nurturing a natural radiance from within. A deep understanding of skin biology and an overall commitment to health and wellbeing are at the heart of Swissline's product development.

In addition, we are the first spa in South East Asia and Oceania to partner with leading organic skincare expert KOTOSHINA Organic Spa from Japan. In Japanese, 'koto' means 'ancient capital' and 'shina' means 'articles' or 'dignity'. As its name suggests, KOTOSHINA was established in 2012 by tapping into the rich histories of both Japan and France. It harnesses the power of green tea harvested from Uji Kyoto and French spa water tapped from Gamarde Les Bains. Keeping to high quality organic standards, KOTOSHINA is certified by Qualité France and has a Cosmébio label. Rest assured your skin will be nourished with nature's best.

Finally, as you depart our resort and wish to continue using our organic Biology toiletries back home, bring your own bottle or purchase a recyclable bottle at our Biology refill station.

CRYO FACIAL

10 minutes

\$50 ala carte | \$30 for add-on to any treatment

We are the first hotel spa to pioneer this groundbreaking facial in Singapore. This purifying facial is suitable for all skin types and helps with almost any skin condition. Powerful cryotherapy makes use of cold temperature technology to cool the skin. This helps to shrink pores and tighten skin. It also causes blood vessels to temporarily narrow. This encourages the rush of new blood cells into your blood vessels after treatment, removing toxins and swelling.
